

**Participant Consent Form:  
Community Engagement and Support Projects, JISC e-Infrastructure Programme**

This interview is being conducted on behalf of the ENGAGE project led by OMII-UK. Please read the separate information sheet for a description of the intent and purpose of this research.

This is a semi-structured interview allowing for a fairly open conversational framework. A number of questions were designed ahead of time to guide the conversation. However, during the interview both the interviewer and the interviewee have the flexibility to steer the conversation allowing for details to emerge that may not otherwise be discussed using a formal, closed question set.

An audio recording may be produced to aid subsequent data analysis; if this is to be the case, you will be warned at the beginning of the interview. All records of the interview, including the notes, audio file and transcripts (if produced), will be kept secure and at all times we will treat personal data in ways that are consistent with the data protection principles set out in the UK Data Protection Act 1998.

The interview will take approximately one hour to complete. You may withdraw from the interview at any time and any data already recorded will be discarded if you choose.

If you have any questions or comments regarding this interview, please contact:
